Test Case 1: General Block Color (Predefined colors)

Test Case ID: PRG_ATTR_001	Test Designed by: Janardhana Reddy G
Test Priority (Low/Medium/High): High	Test Designed date: 02/08/2021
Module Name: General Blocks	Test Executed by: Suraj Bhosle
Test Title: Verify block representation of system	Test Execution date: 03/08/2021
Description: Draw any shape and check its color (On color, off color) is changing based on telemetry conditions .	
Pre-conditions:	
Dependencies:	

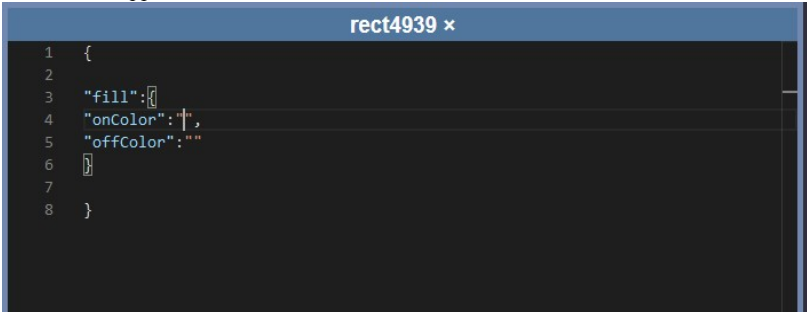

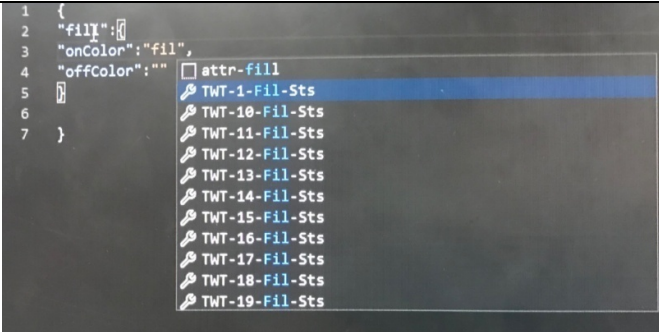

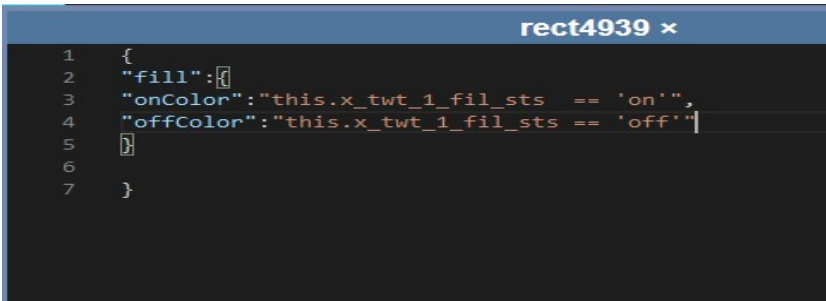

TC 1: PRG_ATTR_001

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Create any shape in inkscape editor and save diagram in 'inputFiles' folder.			As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

2	Open browser and enter url: 127.0.0.1/spasdacs		A blank page with navbar should be displayed 	As expected	Pass
3	Click “Build” on Navbar of SPASDACS web page		1. Status messages of application build process should be displayed. 2. The browser will re load after completion of build process. 3. The diagram created in step 1 should be visible in browser 	As expected	Pass
4	On SPASDACS web page ctrl+click on the shape created in step1		Editor should popup as shown below 	As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

5	Type “attr-fill” and hit enter in the editor		The text will appear in the editor as shown below 	As expected	Pass
6	Enter the text to search telemetry	Search text “fil”		As expected	Pass
7	Select the telemetry to be assigned from related telemetry shown in dropdown. Assign the required conditions.		The text will appear in the editor as shown below 	As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

8	Click “Ctrl+s” on editor.		Editor popup should close and data entered on editor should be saved. To check the saved data press ctrl+click on the shape. Editor popup should appear with the content shown in step 7 expected.	As expected	Pass
9	Click “Build” on Navbar of SPASDACS web page to rebuild the application.		Color of the shape should be updated as per the state of assigned telemetry condition 1) Off condition  2) On condition 	As expected	Pass

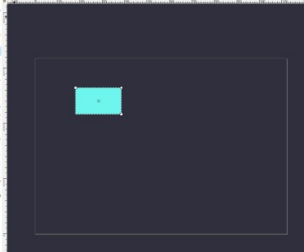

Post-conditions:

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

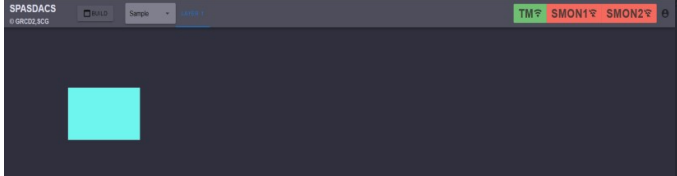

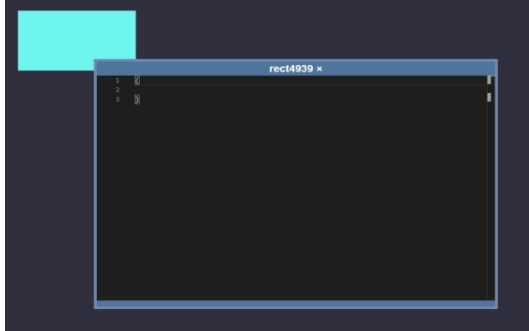

Test Case 2: General Block Color (User defined standard colors)

Test Case ID: PRG_ATTR_002	Test Designed by: Janardhana Reddy G
Test Priority (Low/Medium/High): High	Test Designed date: 02/08/2021
Module Name: General Blocks	Test Executed by: Suraj Bhosle
Test Title: Verify block representation of system	Test Execution date: 03/08/2021
Description: Draw any shape and check its color (User defined colors like green, yellow, blue etc.) is changing based on telemetry conditions.	
Pre-conditions:	
Dependencies:	

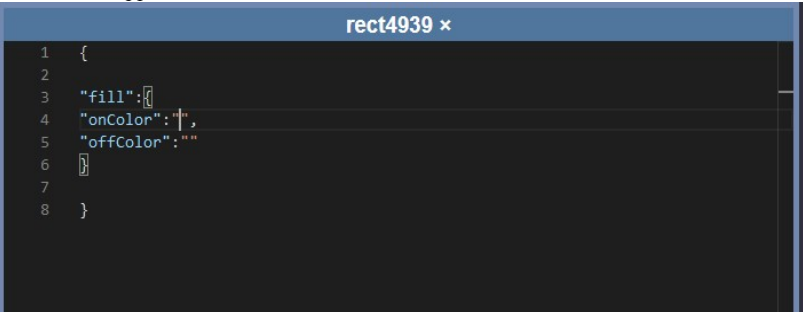

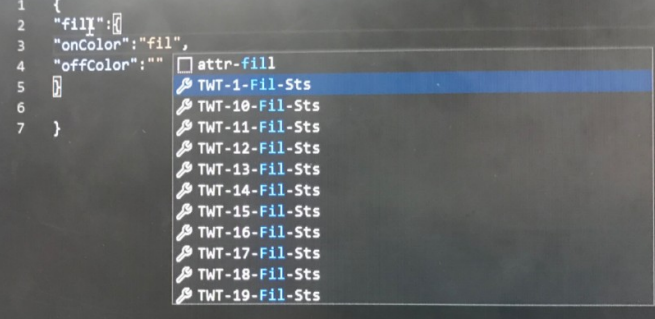

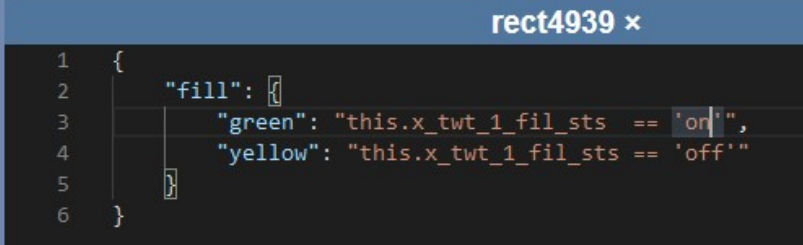

TC 2: PRG_ATTR_002

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Create any shape in inkscape editor and save diagram in 'inputFiles' folder.			As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

2	Open browser and enter url: 127.0.0.1/spasdacs		A blank page with navbar should be displayed 	As expected	Pass
3	Click “Build” on Navbar of SPASDACS web page		1. Status messages of application build process should be displayed. 2. The browser will re load after completion of build process. 3. The diagram created in step 1 should be visible in browser 	As expected	Pass
4	On SPASDACS web page ctrl+click on the shape created in step1		Editor should popup as shown below 	As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

5	Type “attr-fill” and hit enter in the editor		The text will appear in the editor as shown below 	As expected	Pass
6	Enter the text to search telemetry	Search text “fil”		As expected	Pass
7	Select the telemetry to be assigned from related telemetry shown in dropdown. Assign the required conditions and colors.		The text will appear in the editor as shown below 	As expected	Pass
8	Click “Ctrl+S” on editor.		Editor popup should close and data entered on editor should be saved. To check the saved data press ctrl+click on the shape. Editor popup should appear with the content shown in step 7 expected.	As expected	Pass

	SOFTWARE TEST CASE DOCUMENT OF Spacecraft Status Display and Commanding Software 1.0	Doc. No: SCG-GRCD2-SW-2021-03 Version : 1.0
---	---	--

9	Click "Build" on Navbar of SPASDACS web page to rebuild the application.		Color of the shape should be updated as per the state of assigned telemetry condition 1) Off condition  2) On condition 	As expected	Pass
---	--	--	---	-------------	------

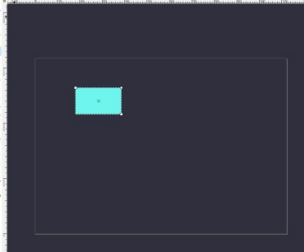

Post-conditions:
